REMARKABLE OPERATION.

New Set of Eyelids Are Made From Skin of Man's Arm.

Columbus, O., Oct. 13.—A most remarkable surgical operation has been performed at Mount Carmel hospital by which a man has been given a new set of lower eyelids, and an examination made today for the first time since the work was done promises that it will be entirely successful. The operation was on W. L. Kerr, who was burned in a natural gas explosion. The new lids were formed by grafting skin from Kerr's arm. The eyes were then sewed shut and bandaged. Yesterday when the bandages were removed it was found possible to remove the stitches from one eye and those from the other eye were removed today.

Mr. Kerr's eyes have not suffered and after his entire recovery from the operations they will be as good as new again.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by all druggists.

Soon after the head was found a man told the police he believed a murder had been committed at the Third avenue address last night and that the body had been cut up. Search of the house resulted in the discovery of an arm and legs of a man in a suit case, and the trunk of the body was found in a closet.
